To Whom It May Concern:

Letter Of Recommendation for Silicomp Asia Pte Ltd

For the past one year, MasterCard International has partnered with Silicomp through its Indian offshore office, to implement our Chip Terminal Testing Migration Program globally.

The Silicomp team has demonstrated their strong capabilities both technically and in their attitude despite working across multiple time zones, geographical locations, cultural differences and languages. Their overriding commitment to excellence has enabled MasterCard to consistently deliver 100% accuracy to our Customers.

I will strongly recommend Silicomp Asia and its OffShore Development Centre in India to any organization evaluating offshoring as a strategy.

Best regards,
